WHAT ARE THE DEFECTS?

Your model is designed and fully complies to all the applicable Australian regulated emission standards; however, the STATIONARY NOISE TEST LABEL was not attached to the motorcycle in accordance with the requirements of ADR (Australian Design Rule).

WHAT ARE THE HAZARDS?

The omission of this label on your model therefore renders the model a non-compliant road vehicle.

WHAT IS THE REMEDY?

To correct this non-conformity, Yamaha is initiating a Factory Modification Campaign, whereby all affected XSR700 models must have the Stationary Noise Test Label fitted by the Yamaha dealer as soon as possible and at no charge to you.

WHAT TO DO?

You should contact your closest Yamaha Dealer to set up an appointment to have your model remedied free of charge.
